

The logo for Ring of Fire features the words "Ring of Fire" in a black, serif font. The text is centered within a circular frame that has a jagged, flame-like border. The background of the circle is a light gray gradient, and the entire logo is set against a white background.

Ring of Fire

Ring of Fire restaurant is committed to sustainability and uses sustainable practices whenever possible. We use organic products as much as is physically and financially feasible, purchase 100% of our electricity from EWEB renewable wind power, reduce energy and waste with in-house conservation policies, filter our water with an Aqua-Metrics system, recycle everything possible, compost approximately 7,200 gallons of material every year and implement many other small changes which we hope will lead us and our customers to a healthier lifestyle and environment. Please join us in these conservation practices. Thank you for dining with us.
